About Nick's Building Supply

Nick's Building Supply

Nick's Building Supply has been in business since 1977, which helps explain why we can offer the best service and quality in the door business. Nick's Building Supply is a leading door wholesaler in the United States. Although our business name may imply other products, we only sell doors. Selling wood entry doors and wood interior doors is our specialty and we do it best for less.

In business for over 30 years, Nick's Building Supply has positioned itself as a major wholesaler / "retailer" in the door industry. Our innovative collection of wood doors is second to none. And, our prices are always the most competitive. We sell to individuals, contractors, builders, developers and resellers.

With over 90,000 square feet of warehouse and office space, and a showroom full of the 'unusual,' Nick Building Supply is able to offer one of the largest selections of wood doors anywhere.

What makes us uniquely different from our competitors is that we can custom build to any opening and any color within a timely fashion.

Contact one of our helpful representatives to assist you with your next building project or home renovation project today. Doors make a "statement" on any home!

Nick's Building Supply, Inc.

Astragal Mortise Lock

Astragal Mortise Lock Features

- Used to securely lock the inactive door of double doors or active sidelite
- Mortised into the entire length of the inactive door edge and astragal
- 7/16" hardened steel rods extend 1" top and bottom to secure the door into the frame
- One easy-to-use lever to lock and unlock the inactive door centrally located at 42"
- Stainless steel faceplate with various finishes
- **Highly recommended on 8' 0" double door configurations!**

Top and Bottom 7/16" Rod & Guide

Easy to use lever

Multi-Point Door Locking System

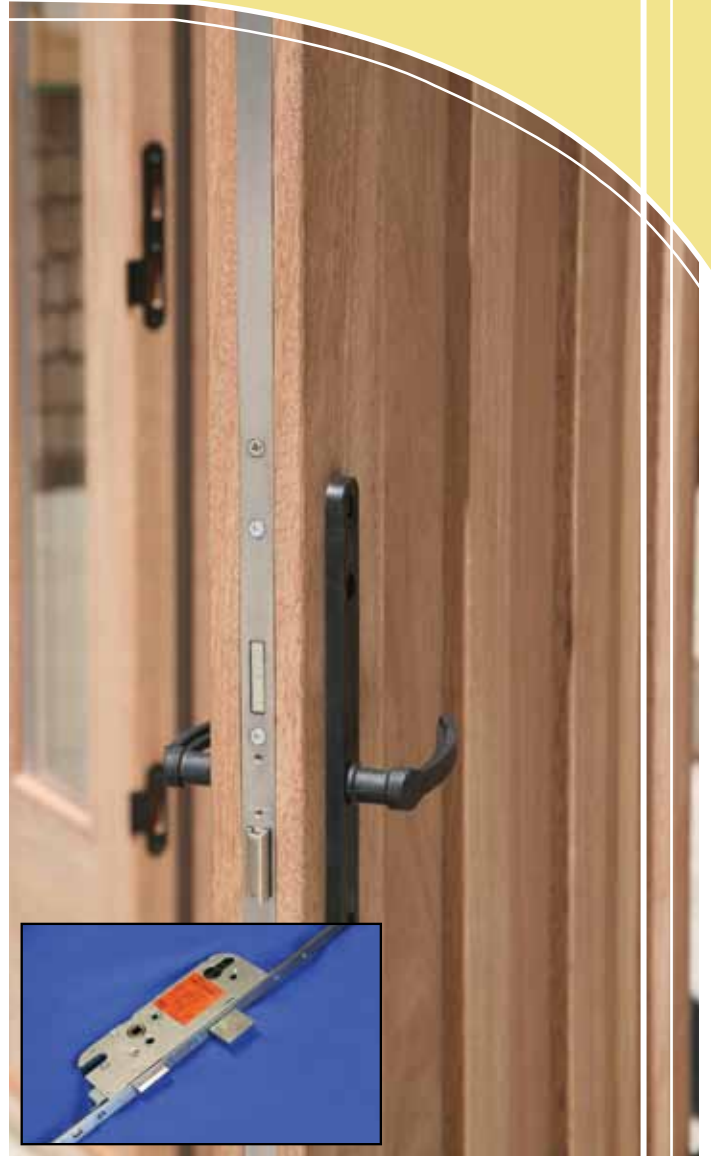

Multipoint Door Locking System

SAFETY, SECURITY, STRENGTH

NicksBuilding.com provides you with the most advanced operating multi-point door lock system now available for exterior wood doors in the USA and all of North America.

The unparalleled **SECURY LOCKING SYSTEM**

- Automatically & independently engages at each latch with a unique, patented design.
- Has multipoint latches that extend to 3/4" (20 mm) and become deadbolts automatically when the door is closed.
- Locked by turning the thumb turn 90 degrees inside or with key outside; special babysitter function locks the complete system simply by rotating the thumb turn from the inside.
- Is constructed with Stainless Steel in critical areas for maximum corrosion resistance.

Leversets

Handlesets

Our new Multi-Point Lock hardware is the most secure multi-point locking system available on the market today. With a multi-point lock mechanism & multi-point lock handles (sold separately) you will have comfort & security knowing you purchased the best multi-point locking hardware system available to you.

The 3 point locking system is available for use on all exterior wood door sizes, door heights, and door swings. 3 point locking systems prevent warping for taller wood doors and ensures weather tightness

Active & Venting Sidelite Options

Active Sidelites

- Utilizes current door space
- Have up to 58" in doorway accessibility
- Easily operate the sidelite like a double door
- Adds convenience when extra width is needed (ex: 36" door w/14" sidelite = 48" of access when open)

Craftsman Style Door with Active Sidelite

Venting Sidelites

- Sidelite opens like a window
- Virtually un-detectable from the outside
- Choose 2/3 or full-view sidelite functioning
- Secured with 3-Point Lock and Commercial Hinges
- High Quality Screens available

2/3 Venting Sidelites

Full-view Venting Sidelite

Dutch Doors

Dutch Doors

What is a dutch door? A door divided horizontally in such a fashion that the bottom half remains closed while the top half opens to provide air flow and security for children and pets. Nick's in-house workshop can make any of the solid wood interior or exterior doors into a dutch door (doors with central rails apply.) Choose a dutch door with or without shelf for a custom look.

Door Finishing Technology

Nick's Building Supply goes above and beyond by mixing the best technologies with the passion and expertise necessary to provide the best finish possible. We have the state-of-the-art finishing machines made in Germany by Venjacob and MB which give our customers the factory finish they deserve.

Our stain is the best in the industry made by ICA in Italy. Rather than using dyes and pigments which fade, we use organic pastes and minerals ground to the finest degree to penetrate deep into the grain of the wood.

The clear-coat we use is the finest Italian water-based acrylic, nano-tech exterior finish available on the market today. The advantages of our factory finishing with this superior top-coat include: excellent water resistance, impermeability, transparency, U.V. radiation filtration from sunlight, specifically designed through rigorous R&D for exterior applications.

Custom Order Doors

Sometimes finding the right door is harder than it seems, but you know what you want. We can create from scratch for you any style of door and glass; from sophisticated to simple! You create the door by size, thickness, panel design, sidelites, transoms and glass. Choose custom features like wrought iron, distressed wood and hand carvings as well. Anything is possible. Send us your picture, sketch, drawing or catalog ad by email or fax. Within a few days, we will present you with the CAD drawing and the quote.
